DETAILED ACTION

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 8 the examiner agrees with the applicant that no where in the prior art are all the limitations of the claims found individually or in combination, especially "A face plat being pressed by a protruding portion formed on the rear surface of the front panel", Snider discloses a structure defined in part by the front panel, a thin faceplate and a holder, but does not teach or suggest the face plate being pressed by a protruding portion formed on the rear surface of the front panel.

Regarding claims 2-7 and 9-12 are allowed because of their dependency upon claims 1 and 8 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hardesty (US 2,831,453), Bauer et al (US 4,800,466), Obata (US 4,807,091), Sato et al (US 5,861,589) and Snider (US 6,394,619).
